A Message to the Future

Imagine a student your age discovers your Youth Tour entry 50 years from now. What do you want them to know about growing up in 2026?

Create a snapshot of your generation and the world you are inheriting. What defines life for young people today? What are you excited about? What concerns you? What do you hope changes? What do you hope never changes? Most importantly, what message would you leave for the generation that comes after yours?

Essay

Write an essay of 500–750 words in response to the prompt. If you include references or cite other works, be sure to provide a properly formatted Works Cited page. All essay entries must be grammatically correct and carefully proofread before submission.

Art

Create a piece of art in the medium of your choice that creatively responds to the prompt. When finished, submit a clear photo of your artwork along with a brief written description explaining how your piece reflects and addresses the prompt.

Poem/Song

Once complete, please submit the poem or song along with a brief written description explaining how your poem/song reflects and addresses the prompt. If you are doing a song, and can perform the song, please include a video or audio file with your entry. Song parodies are accepted as long as they address the prompt.

Video

Create a video that is no less than three and no more than five minutes that responds to the Youth Tour prompt. In the entry form, please include the link to view the video via YouTube, Vimeo, Google Drive, etc. If you submit your video entry via Google Drive, keep an eye on your email as we may need to request that you provide permission access to view the video for the judges.
